Thanks, Bob. I wonder why it took so long for us to get it.

Thanks!
Melissa

Melissa,

The incident did occur in 2006. We received the incident report in March of last year.

Bob

Bob,

The incident that we received through NPIC (I023793-001) looks like it occurred in 2006. When did we receive it from NPIC? Was it back in 2006 or recently?

There are not any wildlife incidents for diphacinone, but there are a lot of pet involving diphacinone and chlorophacinone.

Thanks, Bob. Were there any incidents in NPIC for diphacinone?

Hi Melissa,

The Rozol incident report we received through NPIC is I023793-001. If you need anything else just let me know.

Bob
